THE MMIC, ITS MEMBERS AND ITS PARTNERS WOULD LIKE TO RECOGNIZE THE MOTORCYCLISTS CONFEDERATION OF CANADA "MAY IS MOTORCYCLE SAFETY MONTH CAMPAIGN".

To a rider safety means many things. A pre-ride inspection should happen even before you turn the key. Getting geared up with the proper protective riding equipment should happen before you thumb the starter button or kick your bike to life. Always dress for the slide, not just the ride! Once on the road a motorcyclist has to be super aware of their surroundings. Using SIPDE to Survey your environment, Identify hazards, Predict scenarios, Decide your course of action and finally Execute evasive maneuvers where required.
